SUBJECT
Letter of Support

Dear Dan,

FIFPRO, the worldwide representative organisation for more than 65,000 male and female professional footballers, congratulates the Canadian players with their initiative to establish a professional players association in Canada.

We are excited to learn that PFACan will represent the interests of the professional players in Canada. This initiative is an important step to unite the players both male and female in order to give them a collective voice.

We are looking forward to welcome you in FIFPRO in the future and we reassure you that you will have our support.

Kind regards,

FIFPRO
